

Wildlife Traveling Trunks

Free to Borrow!

Bring an exciting educational tool into your classroom that will help students build skills in Social Studies, Science, and Language Arts while learning about Ohio's native wildlife. Scout leaders, naturalists, and home-schooled educators will find this tool useful too.

Each trunk contains various items that serve as visual aids and offer hands-on learning. Books, posters, and DVD's may be included as well.

The traveling trunk program is funded by the sales of hunting and fishing licenses.
